CUS 417/74.11

1351 St. Catherine St., March 18th, 1878.

DEAR SIR,

DR. DRAKE having intimated his intention of resigning his position on the staff of Attending Physicians to the Montreal General Hospital, I beg to solicit your vote and influence in my favour at the election which takes place in *May* next. I have already served the Hospital as Physician to the Small-pox Department, and for the past two years, under the direction of the Medical Board, as Pathologist. At present, I hold the position of Professor of the Institutes of Medicine in McGill University. As affording evidence of a desire to advance the cause of Medical Science and of diligence in the pursuit of my profession, I may be permitted to append a list of my contributions to Scientific and Practical Medicine, many of which have issued from the Montreal General Hospital.

I have the honour to remain

Your obedient servant,

WM. OSLER, M.D.

1. On certain Organisms in the Blood.—(Proceedings of Royal Society, London, 1873.)
  2. On the Pathology of Miner's Lung.—(From Montreal General Hospital.)—Canada Medical and Surgical Journal, 1875.
