Drafts Dec. 1853

THE MEDICAL MUSEUM,

McGILL UNIVERSITY

CUS417/79.9

MONTREAL,

Sept 2. 20.

My dear Dr Cushing

Dr Shepley tells me you have sailed for home, so I am addressing you at Boston. I am glad today we have some information about Dr Case's door. Miss Gray the Museum Secretary was in Hamilton on her vacation and used the occasion to visit the Museum there, where she found the door. She has made a few notes on it, which I enclose. I know you will be interested. The Valer number is out, but has

not yet been circulated for some reason
only to the publishers. I am sending you
reprint of my article and bibliography.

I hope you had a successful visit to
England as of course you had. It must
have been very sad, but very beautiful,
Dear Lady Baker, with kind regards,

Yours very sincerely

Maudslayi. Abbot
