Dear Lafleur:-

It might not do any harm to write to Donald Smith and to Davidson, (both of whom I know well) and urge your claims. It would really be most satisfactory for you to get the position.

Do come down if you can, even for a few days. It will be delightful to have you. You must of course come and stay with us.

I was overjoyed to hear of the extra hundred thousand dollars. It puts the old school in a splendid position. By the time my twenty years here are up I shall enjoy very much going over all the fine departments which McGill will then have.

Sincerely yours,
W^m Osler

P.S. I don't believe I sent you the last batch of my papers. Miss Humpton is in doubt about it, so will send you the whole lot.

W. O.
