July 22nd., 1905.

Dear Campbell:

I wish you would send me the photograph of William Smith, the aneurism of the abdominal aorta. I think there were a couple taken, one, also towards the end when he had the leg drawn up.

I am afraid you are all roasted in Baltimore from the accounts we get of the heat. We have had a wonderful summer. Marjory has gone to Abbots Langley. I hope she will join us later. Love to all the boys.

Sincerely yours,
W. Osler.
