

To Dr. Bushnell from W.O. (with J.G.A.'s letters, 1906.)

(Typewritten).

13, Norham Gardens,
Oxford.

February 12, 1906.

Dear Dr. Bushnell,

I am so glad to hear you are getting the section work arranged in pathology.^x Toronto meeting of British Med. Assoc. J.G.A.) I have had a talk with McKenzie about the arterio-sclerosis discussion. It would be very important to have the experimental side of the question presented by men who have been working at it - say Pierce of Albany and Klotz, one of Adami's assistants. If you could get Welch to introduce the discussion on the forms of arterio-sclerosis, it would be most attractive.

Sincerely yours,
WM OSLER.

Where is Adami?
