Dear Mr. Phipps:

I am so glad to have Meyer's letter and to hear that he is the one selected to take charge of the new clinic. I have known him for many years and have the highest appreciation of his ability. His training has been admirable and he has a great gift of getting good work out of his subordinates. Please let him ^(me) know when you expect him, as I should like very much to have an opportunity of talking matters over with him.

With kind regards to Mrs. Phipps,

Sincerely yours,

Wm. Osler.
