Dear Macphail:

Thank you so much for the 'Howe Speeches', some of which I have been reading with the greatest interest.

Your two articles in the last number of the Magazine are A.1; only I should like very much to give you my impressions of the Great Republic from the inside. From my point of view yours are entirely erroneous. It would do you good to marry an American girl and be properly and thoroughly chastened.

I wish I could give you something before long; I have been pegging away at my Lumleian Lectures, but I will try to get something ready, but it is impossible for April.

Sincerely yours,

W^m Osler.
