

13 Norham Gardens,
Oxford, Dec. 22nd., 1910.

Dr. F. G. Finley.

Dear Finley:-

I am sending to you at the Library a few pictures of famous clinicians. May I make a suggestion, that you should try to develop the pictorial side in the building, and have pictures of famous men in each department? Small committees of the different departments would do it, and the Faculty might pay for the framing, or we might raise a special fund. I should be glad to chip in.

The Basedow picture is most interesting, and was got for me specially by his grand-daughter. The Sutton has just been done by his son-in-law -- an enlargement from the photograph. Talk to Adami and others about it. I am sure it would be a good thing to have the walls nicely covered.

Sincerely yours,

(Signed) Wm. Osler.

Dictated.
