

10, Wimpole Street,  
Cavendish Square, W.

21st June, 19

My dear Osler,

I need not tell you how warmly I congratulate you on this well deserved honour. You have been all along a peace-maker and a binder-together of the different interests of medicine both at home and abroad, and if for no other reason this distinction would have been fitting and suitable, but I cannot help feeling that in a sort of way it makes you more truly belong to us all here than before, and I trust most fervently that your life may be long spared and that you may go on doing exactly the good work which you have already done.

Always yours sincerely  
Thos Barlow
