

(Post Card)

(Post mark - Oxford, Aug. 30, 1915 ?)

Many thanks. There have not been many p.m.'s. I am collecting them for Turnball who has had 3 pm's & is writing up the bone marrow.

So interested in the gout work - do send me a paper. I should like to add a name on next Ed. I am seeing much of interest. Dysentery cases begin to come in from the East.

Russia is getting a bad knockout, but things look brighter in this country & France. It is going to be a long job. Revere is well & very happy with the McGill men. Send me a photo of your babies. Love to you all.

Ever yours,

W<sup>m</sup> O

P.S. Excuse a p.c. but secretary, chauffeur, & butler have all gone. I wish you could spend a few evening in my library, all sorts of new old treasures!
