

C o p y.

From the Regius Professor of Medicine, Oxford.

13 Norham Gardens,

July 4th, 1919.

Dear Dr. Sa'eed,

The copy of Avicenna 1593¹ arrived safely last week. Unfortunately it lacks the Latin title page and the table of contents, otherwise it is a beautiful copy and in a very nice binding.

I will try to get a copy of the French translation of my book and have it sent direct to you for your friend. I am afraid it is out of print, but I may be able to get a secondhand copy.

About the Al Hawi from Razi's, £30 seems rather high: would he take £20 for it? I am sending you two or three papers which may be of interest.

Lady Osler sends warmest regards, and Dr. Cowley always asks after you, and I took him your letter to read.

Sincerely yours,

(Signed) Wm. Osler.

From the Regius
