Washington Aug 5, 1841

Dear Solano

The difficulty in relation to your claim, and that of the delegation generally, is a charge that you all went down there to claim negroes, rather than to do service in the purpose of your commission. They have written to Armstrong for a report - but I am pressing them to decide without waiting for that. Day before yesterday they agreed to have it taken up - so that I hope soon to get it for you.

Antu spent a day or two with me - he is now in Baltimore. Tell Sumner that I have his notes & will write him in a day or two. Why don't you let me hear from you.

Yours truly
T. Levy
