

Graham has one such unsold
and will keep it till you come
to try to sell it. If not you can
take it with you.

I have been surprised to
hear that the Legislature have
granted £50 to Reid of Dalhousie College
to print a school map for his
geography and like also to sell.
I am sorry you did not watch
this as a proper representation
of the Legislature would have
prevented it. It is quite likely
the map will be a failure
and I shall ask Mr K to
send me a copy so that
if it interferes with ours
I can prevent its sale or
apply to the Legislature for
compensation. Reid's geography
has quite failed in so far as the
public is concerned & this will
likely be no better; but I shall
take care to protect Mr Phelan

as far as I can if it were
there. You can show this
to Mr Mc P. but he should
be concerned about the matter

I have now got most
of my little matters of business
arranged and shall wait
quietly for the steamer.

Trusting that you do
not continue to suffer any
inquiries concerning your
expectation with me.

Yours ever
J W Dawson

So I have taken one of the
Hudsons from the Kenting
He will keep the other
on sale

I have sent Agnes a little
message present which Mrs
I desired me to get for her

Steamer reported coming
in. of 5th of 6 - night

1887
