My dearest Lois:

To have half the page filled before one begins is a great help to a man of few words like me. I have spent the morning and afternoon driving out to four graphite mines scattered like the points of a star and about four miles distant from the centre. I will arrive in Ottawa at about 10.30 and spend tomorrow there but hope to be able to leave by the 4.40 C.P.R. train which, I think gets into Montreal at 8.0'clock.

We'll have to go to the McGill-Queens game on Saturday - don't you think so? If you would like to go would you mind asking Owen to ring up the Gete house and see if they could get me a couple of good seats. I think probably the boy could

reserve a couple for me² so that I could call & pay for them.

One of my customers has just come in. I'll have to run.

Now remember if there is anything you would rather do than go to the football game, remember I just want to be with you and I don't care a rap personally where we go.

With love,
Yours
Edward
