

From Youghall, N.B.

Monday.

Dearest Edward.

July 10<sup>th</sup> - 122

I do not remember just where I left off in my Youghall narrative - but one thing I know & that is if you don't write to me I won't write to you. You have plenty of time to send me a letter a day. You can't be <sup>very</sup> fond of me if you are not will'g to spend 10 minutes a day - I have had no letters yet - except a bill & my dividends!!!

The weather seems to have settled down and has been lovely & bright the last 2 days - fresh winds & blue

Sea. I took nurse & church  
 yesterday and then I took  
 the children for a drive  
 back in the country - it was  
 lovely - fields of daisies that  
 looked almost like snow.

We saw a young crow on  
 the way - & nurse & I sent  
 John out to try & catch it -  
 he reluctantly got out but  
 made an attempt to catch  
 it - & finally returned saying  
 that it had got into a  
 swamp -

Yesterday we had a

wonderful bathes in delicious  
warm water with big waves  
the children had a wonderful  
time - I took Ann out with  
her & she screamed with  
delight - the man was in for  
about 2 hours. I think.

This morning I was helping  
the children make bark  
table & apron rings they were  
all very happy & we made  
some very pretty ones. Then  
we went for a long walk  
up the shore Sophy Campbell  
myself & the kids - we found

a large live Crab which I made  
John pick up - we found some  
sweet little hermit crabs inside  
big periwinkle shells. & various  
kinds of jelly fish -

Dearest Edward I really am  
enjoying myself immensely we are  
all getting home -

It is lunch time so I must  
run now - Excuse scrawl.  
Much love darling. I am taking  
some plans in to have them  
developed today.

With love.

"Popsy"
