Friday 12 P.M.
1534 Pine Ave W.

My dearest one.

I am ensconced in the
back top room of your Mother's
house. After I left you
last night I took the car
to the garage, and left it
there to be inspected. I then
decided to telephone your
Mama, and ask if I could
stay for the night. She seemed
delighted so I brought a comb
& a tooth brush and came up
in a sheet car - just before
I came in the front door, I saw
your place pass over, and it

certainly gave me a nauseated
feeling to think of y miles up in
the dark sky. Later you ma
and I had a very restless time
thinking of y dodging the lightning
and thunder bolts - Later I heard
a plane returning, and I felt sure
it must be yours, and this morning
found it to be so - I wonder what
things were like to y , or if
 y were as happy as ever ~~be~~

This morning I find that the
steering gear is in a very dangerous
condition and will take ~~the~~
all day to fix - So I shopped
and did some things at the house
5 o'clock. The car not yet ready
will not be finished till 10 o'clock
tomorrow - So I am here again

3rd have just taken
tonight, I took your mother to the
movies, and we saw a very
exciting Targan, Targan having
acquired a young son, who does
some very daring stunts with his
wonderful swimming ---

Margery and Bobbie go off to-
morrow night & he comes here to
stay.

I hope to get out to come
tomorrow morning, picking up some
food as I go, for the week end.

I will be so glad when you are
safely back again I seem to need
you very much now that Alice and
Anne have left me. Life has been
so full for both girls this year, that
I am rather longing to have, and
creep close to your heart & and know
a little more of you yourself, and
have you know a little more of me.
When people are so busy they live too

too much on the surface, and don't ~~know~~
~~not~~ know or realize lots of things
that are going on beneath.

Last year I thought that you were a
little bored because so many people
said such nice things about her at Alice's
wedding? Well I can assure you that
it is the ^{reverse} this year, never have
I heard so many nice things about
you. I feel quite puffed up with
pride on your account. —

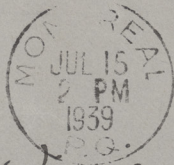

Well my darling, I do hope that
you have been able to rest — and that
the "serious business situation" has
improved without taking too much out of
you — And please remember dear
that I always love you, even though
I am not wildly enthusiastic
about some of your projects, or what
shall I call them? — ! hot ideas!

Much love to my one and
only "Honey bunch" —
yours as ever.

Louise.
