Dear Mrs. Winslow-Spragge:

In keeping with our conversation over the telephone yesterday, I enclose a note I received from McCord about the provenance of the Dawson Papers. It replaces the facts as far as we know them for my off-the-cuff recollections.

Cordially yours,

John Andreassen
University Archivist

FROM: Eve de Langley, Archivist, McCord Museum

SUBJECT:

Enclosed please find a copy of my letter to the Union List of Manuscripts advising them of the change of location of the Logan and McGill Papers.

I have been trying to find more details as to the provenance of the Dawson and Logan Papers. All the accession book has about the Logan Papers is source: D.R. McCord, 1932. As for the Dawson Papers - many of the items came to the Museum from the Dawson Family (no particular member mentioned) via Dr Lighthall, c. 1926-1928. Dr W. Bell Dawson also donated a small number of items. However, as we get further into the McCord Papers in the fall, we might well come up with more specific information. If so, I will notify you.
