10 September 1973

Dear Mrs. Winslow-Spragge:

Do give me a 'phone call when you return to Montreal. I've finally managed to collect prints of the color negatives you requested. We've made copies of the pencil and pen and ink sketches on microfilm as well, and I have ready to return to you the originals. Within a week or so I expect to assign to my graduate students another series of about 15 bundles of Dawson material which should result in as many preliminary guides early in the new calendar year. We progress, if sometimes slowly.

Cordially yours,

  
John Andreassen
