Dear Edward,

I earnestly
 hope that Lois having de-
 finitely placed herself ^{definitely}
 beside you in the Anglican
 Church. will be a occasion
 of your both, denoting your-
 selves afresh to the Christian
 life: & helping each other to
 "more definitely renounce the
 pomp & vaunt of". & to be
 the seroants & soldiers of Jesus
 Christ to your life's end -
 never shall devoted ser-
 vants & soldiers be more
 needed than now when
 'careless & gadless' spirit
 is so rife. & you have
 the great charge of training &
 teaching your little ones.
 God bless you both, & go on
 steadfastly to study the word, &
 pray constantly.

that Sweden has a ^{very} ~~lot~~ ^{great} ^{number} of ^{Protestant}

 demand - Sweden's ^{own} ^{ways} & the way - ^{that}

I very much enjoy to be with

I send you a copy of the
Unicevity magazine, with
an article as to the Kikuyu
Controversy. because I wd like
you to see what important
issues depend upon some of
these modern views as to the
rite of Confirmation - & how
clearly this is understood by the
bishops of your own Church, who
understand history, past & to come

The world of churches has ^{long} been
very strongly moved to assume
a more united & brotherly
attitude, especially in the
view of more earnest mission
progress: & you can see how
the one view must isolate the
Anglican Ch - while the other
without detracting from any
thing in her articles or book
of prayers - will give her leave
to act in brotherly concert
with other Christians. & demon-
strate that all are one in
Christ, which Christ said
wd cause the world to know
that Christ he was sent by God

I have watched these
movements for years, you per-
haps have not thought much

about it: & I have noticed that most of the
youngship clergy have been trained wth this
modern ideal: as my father used to say it's
not very important - what a man stands, but
it matters very greatly in which direction he
is going. This work has made us all pray
wth content, & it is wonderful when we see
them returned in a doctrine of hate &
cruelty & pride: which is bringing ^{us} to ruin
or it is time we see another & returned
amongst the fathers of us, is trying to do
even the best. Nathan a scholarly lecturer
but it will only take 5 m to read. It has
been written loosely: but there is not time
to rewrite. The people are all passing down
from writing at the university - see how much
at the last - hospitals will not be the
same - the nurses will not be the same
at the military hospitals these days as there
had the part of training them of - I wd not say you are
