VIEW OF CANADIAN INGERSOLL-RAND COMPANY
PLANT AT SHERBROOKE, QUE.

||

VUE DU PLANT DE LA COMPAGNIE
CANADIAN INGERSOLL-RAND A SHERBROOKE, QUE.

Canadian
Fingers of
Rana Co
who were
responsible
for munitions
in Sherbrooke P.Q. —

These watch-fobs were produced during my time with Canadian Ingersoll Rand.

The old drill used solid steel
George J Key
invented the
"Keyer Drill"
which requires
hollow
steel for
its operation
WZ

The old fashioned
"Tripod Drill" on left
"Little Giant" -
reciprocating drill
with slide valve
is very old and was
superceded by the "hammer drill"
on right
