My dear Will -

I sent you yesterday, two films, which I hope arrived safely - I was most glad to get your letter & to know that you had cut the trees & tidied up a bit - mar about - our dear little cottage - as I told Ruth you had done more to put it in order outside than any of the other boys - The girls have marked bravely at the inside for years - I also received the book about the fairs of Montreal - I have read about half & it is very interesting. I will return it as soon as I can finish it - it is very interesting - but I do not much like lending a library book: as that is not

generally allowed in libraries.
Do not send me the English
at- h. Pole as I know it - & Julia
Terne. I think it is in the house
& I will look it over - It will
be interesting reading, now
that it has really been found
to compare the imaginary tale
often clearer men seem as if
were farcast the future, so
that the story before & the
story after are not so very
different - I also have sub-
scribed for the Witeus for
you & hope you will have
received the first copy about
the time this reaches you -
We have had some very busy
days. Shopping & settling - & our
housemaid thinks our house too
large & is leaving & I have not
yet got a furnace man - & the
weather begins to be chilly -
The only thing I have not sent
you is pocket hdkfs - & if you
need anything else you must

eye on your temptations & trying to
blame on them one by one, trying to
them we all take the Convincer
together & remember our great
deeds who think of us all always
& I thank you & long for the
day of your coming, when we can
go together to that great rememberance
you have been happened into his
arms & your life appears to show
& I know you written to his voice
& are truly to follow - & the more
travels you have the more he wants
you -

Jack can come with from the
land Friday morning, & I told the
mother that he had been come to
me the he journal happens to he
comes to us & will be his time to
answer when he goes to a place.

he has found. I expected to
see Joice Fleet yesterday
but did not. I was so
anxious to hear all the latest
news of you - Try & tell me
more about your doings
when I. V. E. I have gone out
to see poor little Coffee Jim
at the orphanage. His mother
has been trying to get him
out - by declaring he is a
protestant - but been w/out
help her, she is such a very bad
woman, the poor child is
much better where he is.

Poor Smithy - been finds has
been drinking for years -
& between that & hard work
his nerves are all shaky - he
is trying hard to reform & he
comes up here every Satur-
day night - because the others
try to take him to drink as
he always has money then
