Eva wrote about the
football

Dearest -

a busy day or two - some dress buying & dress-making which is always tiresome. So the J.C.R. has gone back to the old time & what a big price for a single ticket! I wonder what difference there is in the 2^d class for & if you ev^d like to take that & save the difference for N. mas presents! I have always wanted to try & see if it ever goes enough to go that way. In England nearly every one takes the 3^d class, which is equal to our second.

I hope the cut is all right - you are evidently getting expert with the axe for you ev^d have cut yourself long since. I saw a boy that says that Cor is very near the end of his

Wridger, I might be up any
day to see how Montreal
is going, then we will see
what he is to be about next
& I want to talk over the
future for you - The farm-
ing is a very good idea
but to get on, you must be
not a conductor - but a
good farmer who com-
pletely understands his
business & as it takes 5
years to train a doctor &
for an engineer, so a far-
mer needs training & I will
send you the prospectus of
the Mc Donald College &
They have a 4 yrs course
when a man can take a
College degree in farming
or a two years course
when you get a certificate
or adobe & ends when you
learn a little to work on
The entrance age is 18 - &
many are older - so you
have two years to work
up & get ready to meet
their qualifications & then

would be time enough
you could take a well arranged
good course - you would
see what is required. It
might not be a bad idea
to go back to Melis & get
on quietly there, if we can
not make a better arrange-
ment - you have never
told me about the school
teacher & if she could be use-
ful for Arithmetic, Geog-
etc - Probably she will not
be much at History, what
diploma does she hold
& do you know or like
her?

I will be able to
tell you exactly about
H. M. in another week
or so. When I hope to know
C. & B. J.'s plans - the latter
may not get here till New
years - & if so, we will rather
put off our celebrations, & let
H. M. pass quietly.

This is Sunday again &
I wake up with such a rest-
ful feeling, that a pause has come
in the hurry - as long as I had

little children - Sunday was
not an easy day - for the maids
had to get out of course the
washing & feeding & caring of the
restless little people had to be
done - but I nearly always got
to church & that was such a
haven to sing & pray & listen, &
have no distraction -

Wed - the last two days, but
still mild. At last Queen's
city street is being newly
improved - but oh it shall
be smooth concrete for the
poor sick & broken people. Do
you know we have a motor
ambulance now, that has a
shrieking whistle -

I went to see Mrs Hobbs in
her new flat & everything
looked so nice & fresh & pretty
& she looks most sweet & pretty
herself

F. G. M. is in bed today not
feeling very well. & I am sure
the rest will be good for her.

I must find & send you the
book of adventures a short
one if possible that you can
read in the 'train', for a long
day will need something to
amuse. I am sending a Wald
world to Mr Tuckey tomorrow
for I do not know the postage
be sure you read about the
Boy Holstenen =
