

Pl. Gwa
Conrad - etc

Montreal
June 15th 1902

My dear Clare,

We are at last
having a little summer
weather, the first since
you left — not ex-
cessive heat, but just
pleasantly warm.

Ruth has had nothing
to complain of yet and
is looking much better
than when you left.

Possibly I may send
her and Bernard down
the end of this week,
though the present plan

is for all to go down
 together on the 24th.
 I am sorry that Eva
 does not pick up
 more as trinitis. She
 really needs a little iron
 and I must see whether
 there is not some prepara-
 tion that she can be
 induced to take.

We had a Professor
 Lawrie of Edinburgh
 to lunch to-day and
 he remained all
 afternoon, talking up
 on the roof garden.
 He is a very intelligent
 man and a good
 talker. We had in-

intended to go and see Mrs. Tolson and Aunt Flo, but may manage this this evening.

By the way has Conrad got a hat with him? He seems to left his here and ought to have one for Sunday. Then have you a clock for the drawing room?

Let us know.

I have finished reading the R.M.C. exam. papers and must begin the A.A. ones, of which there is a huge pile.

How or when I am

to get through with
everything there is to
be done here I do
not know; but I
am very anxious to
sit away.

With love to all

Your aff. father.

Thank you for your
letter, received yesterday.
