My dear Clare,

So glad to get your good letter and that your friend is interested in Grandfather's books. The two best are: -

"The Story of the Earth and Man"; an interesting general account of geology.

"Salient Points in the Science of the Earth"; a more general discussion of the beginning of life; plants and animals; man and nature; &c

The first of these is published by Harper & Brothers, New York. Both originally published by Hodder and Stoughton, London; (Grandfather's publishers.)

Both are entirely out of print now; can only be had in a public library, or from a second hand dealer. The two best dealers in second hand books, and most likely, are: -

J. and E. Bumpus, 477 Oxford St., London, W.1. England

~~Foyle's; 119-125 Charing Cross Road,~~

W. and G. Foyle, 119-125 Charing Cross Road,
London, W.C.2. England.

You will be glad to hear that I am off the Hay Diet, except in a very general way; and Aunt Florence nearly so. Thanks for all your news. Do run in if you can.

Affectionately

Uncle William
