

180 Clermont Avenue,  
Brooklyn, N. Y.

March 19, 1883.

My Dear Miss Giff.

Will you allow me to trouble  
you by requesting a favor. I am anxious  
to obtain a complete list of Dr. Dawson's  
published works. I have several of them  
and the better acquainted I have  
become with them, the more I have  
come to know their exceeding value  
such a combination of the exactest  
scholarship, both philological & geological  
with a truly devout spirit; such mastery  
of physical & natural science with in-  
sight into the word of God, I do not  
know any where else. It gives vast  
value to all his writings, especially in  
these days of the insolence of material-  
istic assaults on Christian faith. I  
find them of great value with thoughtful

Young men who need judicious restriction.  
Now I am desirous of obtaining a  
complete list of all that he has published.  
And I venture to ask if with any  
further yourself to inconvenience you  
can obtain it for me. The very pleasant  
renewance comes to me of our  
delightful interviews & good talks about  
the heavenly truth just a year ago -  
I enclose our programme of service for  
this week, mainly in order to ask  
you to notice, the presentation of the  
real unity of the Body of Christ shown  
in it - Each man represents his own  
denomination, but all testify of the one  
Christ. I had one disappointment in it,  
An Episcopal brother & minister of a neigh-  
bor's church was when taken one of the  
City; but was prevented by circumstances  
beyond his control. Kindest salutations to you  
brother.  
Very respectfully & cordially  
Alvin R. Thompson.
