

Hamp, March 5. 1868

My Dear W.

I find you at the request of the Committee on the local lines, a report of the value of the beds, School at Cambridge - they beg us to enquire if you have any objection to state what you think of the value of the beds, & the feasibility of them by water. If you can't give a report, they should be to enquire next, when what time you will agree to go

W. S. W. Dawson

There is the Spring & give us a  
sketch of the beds & report on  
their value.

If you think it proper to make  
any change for the Report you  
may see said, but we shall also  
you with the rest of it.

We are getting up a report  
on the results of lands treated  
as about the same and not  
renewed. They have to send  
you there to set your report  
up, the value of the same  
they contain.

Under Mr. Haver by this part in  
the same subject - See too  
at end.

All this is preparing to me  
drawing a strong reply to a  
my brother letter of Mr. Linnæus -  
sent to the Council & Senate -  
& of about a copy has been  
sent by the Gov. on the table  
of the House.

Your reply by the hand of  
Sunday with Dobby

Yours truly

George W. Jones

My regards to Mr. D & to the rest.

Send back Mr. Haver's statement  
with your report.
