

Freton Jan'y 1849.

Hon J. A. Young  
Dear Sir

In reply to the questions  
in your note of the 2<sup>d</sup> Inst, I beg to  
send the following summary of facts  
relating to the mineral productions of  
those parts of Colchester & Cumberland  
traversed by the proposed line of rail-  
way from Halifax to Quebec. As no  
systematic survey of these Counties has  
been made, I can give you only  
the results of observations made with-  
out any direct reference to the railway,  
and the greater part of which have  
already been published in other forms.
