

Boston June 1<sup>st</sup> 1850

William Dawson Esq

My dear Sir,

I cannot please you better than by making you acquainted with my friend Dr Thomas M. Brewer one of our efficient members of the Boston Society of Natural History for a long time curator in Ornithology and an active working savant.

He has been for some years one of the Editors of the Boston Atlas one of our most respectable newspapers but though at work in the political field he has never lost sight of the more congenial study of Natural History - His forthcoming work on birds Eggs will form a most valuable addition to our scientific knowledge.

He wishes to obtain the birds & eggs found in the British Provinces & I know of no one who can help him so much as yourself - You will of course extend to him your cordial aid -

Most respectfully I am  
Dear Sir your friend & Obedt  
Charles T. Jackson

William Dawson Esq  
Pictou
