Letter
J. W. Dawson
July 1894
George
Frederic
New Brunswick

July 5/93.

My dear Sir -
When I had the pleasure of
seeing you in 1892 at Halifax we
had some conversation on the
subject of superior education in
these colonies - I have not for-
gotten the interest which you
took in this subject -
There is one last separate

J. W. Dawson

a proposal has made in the
Name of openly with the
Provincial endowment for King
College - Fredericton - an amend.
- such however as carried
authorizing the appointment of
a Commission to examine
& report on the subject -
This implying a hope that
the restriction might yet
be made useful -
After comparing with my

Committee I am deeply of
opinion that it would be
of great advantage & this
morning if you would consent
to sit on this Commission.

The Provincial Secretary is
directed to write in return
you would consent to serve
with Mr. Mather, Mr. Gray of
St. John & perhaps Dr.
Byrnes of Canada - he
may be necessary to assist

five commissions but must
will depend on the answer we
set for you & Dr. Reynolds -
My wish would be that one or
more of the commissions should
visit Brown's University. In
that case I would like Mr. Dr.
Weyland, its principal, before
reporting -

There is no definite who
for the payment of the Commission
but I presume there will be
no difficulty in making this as
the act authorizes the appointment.
I think it right to mention ~~the~~
Belgian one, very dear to ~~the~~ fact
from your ~~particular~~ ~~interest~~ ~~in~~ ~~the~~ ~~Commission~~
