

1376

October 24 1855

Dear Sir,

I have just seen
notice in the Athenaeum
a paper read by you before
the British Association, in reference
to the Rodentia of Nova Scotia
I am now engaged in the pre-
paration of various monographs
of American mammalia in
conjunction with reports on the
collections of our recent gover-
ment beautiful expeditions,
and my anxiety to examine the
mammals generally of the
British possessions. If you have
any specimens to spare will
you will let me have in ex-
change for any N. American
vertebrates from the United States.
I wish you will send for a
season. I will confer a very
great favor.

Yours truly
Richard Owen

McGILL UNIVERSITY ARCHIVES
ACC. NO. 2252
REF. 121

contained in the enclosed list
with you would like to have
are sent them out, and
I will be happy to see of the
along to send such as we
in space

Very truly yours
J. W. Dawson

Montreal

I.D. where can I find a copy
of your paper on the Natural History
of Nova Scotia? I have
the Academic Geography

1379

Ch

Dear Sir,

I have
noticed in the
a paper read
to the British Associa-
tion the Rodent
I am now engaged
in preparation of a
series of American
Council with
collections of or-
nament specimens
and very anxious
to receive. I have
mammals for
British possession
any specimens
you will let
change for or
vertebrates for
which you are
season. You are
great favor

Yours truly

J. W. Dawson
