Paris June 26. 1867

Dear Lesley

your kind note came to me mailed at Chalons. I hope you are now enjoying yourself on the shores of "clear placid Lemane" where I look forward to meeting you in a few days. I shall probably leave here July 2-5 (I don't know whether to wait for the Sultan's fete of the 3.) and proceed direct to Geneva. It would be nice if you could meet me there and we could see Jane together up to Chamounix. & via Col de Balme to Martigny. Hence via Sion to Interlaken. but perhaps I had better come by you at Vevey. first and visit a few hours from Geneva.

William Baker California is here talks of joining me. I do not know if he will come. but I hope in such event his company would not displease you. He is a very agreeable companion and an admirable observer, with much experience of men and things from California. Russian America. China & Japan - It is not certain whether he will come. I am

anxious to leave Paris, where life is after  
 all very lonely & prop. help for me. Soalan  
 of the Mont. is large & I will have spent  
 some pleasant hours together lately &  
 I have enjoyed myself for two days this  
 week.

I will write me a line when you get this &  
 say what are your plans & how you are.  
 With best regards to Mrs. Seelye, I remain  
 always affectionately yours

J. P. Seelye
