

Harlequin, N.S.
Feb 26, 1869

Dear Sir

Yours of Feb 17, with
"Notes on New Dominion" has come
safely to hand. I have no
doubt that the Institute will
gladly avail itself of your
observations, which will be
noticed as "received", at the
March Ordinary Meeting, and
will probably be read before
it at the March Ordinary
Meeting. Afterwards I will
try to get them published
in one of our City Papers. I
will send you a Paper
containing a notice of the
Papers to be read at the April
Meeting, and will otherwise
attend to the instructions in

Dr Dawson, L L

your letter —

There is no copy of your
new edition of "Academy
Geology" in the Institute,
and I dare say, it would
be taken as a graceful
compliment if you would
present me

I remain very
Yours faithfully

Wm. G. Fisher

Sec. U. S. Geol. Surv.
