Dr J. W. Dawson  
Principal of McGill College,  
Montreal.

Sir, I beg to hand you enclosed  
invoices of apparatus which will  
be delivered to-morrow to Messrs  
Lampson, Low & Co for enclosure.  
Please return the simple stage of  
the microscope first convenient  
opportunity. As your instru-  
ment has no substage I have  
not sent a Ross Condenser which  
would have been inapplicable,  
and I did not like to send  
a substage without receiving  
an order to that effect.

I have recently constructed  
a front combination for the  $f_2$   
and one for the  $f_1$  to convert  
these objections into immersion  
lenses: the price of the former

Ref - May/69  
is £2-10-0, and of the latter £2-0-0.  
Should you desire to have this  
addition made to your <sup>order</sup>, it  
would be necessary to send back  
the objective.

You will find enclosed with  
the apparatus a copy of my  
new Catalogue.

Yours respectfully  
Thos Robt
