

GEOLOGICAL SOCIETY, SOMERSET HOUSE.

W.C.

22<sup>d</sup> Sept. 1869

My dear Sir

I am afraid I can  
lay claim to but little of  
the honour which you seem  
inclined to ascribe to me, -  
all that I did was to translate  
M. Grand-Eury's paper  
which seemed to be of importance  
I will hand over your paper  
to Dr. Francis at once &  
will take care that the

proofs are carefully examined. -

Your paper on Graphite  
in the Laurentian rocks  
of Canada was read before  
the Geological Society on the  
23<sup>d</sup> June, but I am sorry  
to say the referee (suppose  
only to his absence from  
Town) did not send it in  
with his report until  
some time after the  
last (special) Council  
meeting, & shall therefore  
be compelled to postpone

its publication until  
the February number of  
our Quarterly Journal in  
Berlin in

Yours very truly

J. S. Dallas.

I am sorry to say that Mr.  
Scudder's paper on Cestoniferous  
Anzispoda was unfavorably  
reported & that the Council  
decided to publish only an  
abstract of it.

Prof. J. W. Dawson.
