Sir,

As I hope to be
in London in the last
week of April and in
May I beg leave to
state that I shall be
willing to deliver one
or more lectures of a
popular character and
illustrated by large drawings
and specimens "On Fossil
Floras before the Coal
Period", being principally
the Flora of the Devonian
period. As my object

is to bring before the
lenses of Science in London
a subject to which little
attention has hitherto
been given in England,
I desire to make the
stipulation as to terms.

I have the honor
to be
Your obedient servant
W. H. H.
