

## GEOLOGICAL SURVEY OF IRELAND,

Office, 14, Hume-street, Dublin.

Sept<sup>r</sup> 2<sup>nd</sup> 1870

My dear Sir

I regret much you could not come here to see our Collection of Upper Devonian fossils (Ireland) which are the best we have I believe, nothing to represent the Middle & Lower divisions. I have just forwarded a Box of our Irish characteristic species to you thro' Mr Shoo J. Moore of the Free Museum, Liverpool at your request and it gives me much pleasure to do so - I have also to thank you for the Papers you so

kindly sent me which are  
extremely interesting -

I will bear in mind your  
remarks on our fossils, and as  
I am preparing a Monograph  
on the subject, will give them  
due consideration -

I have much pleasure in  
forwarding Part 2 of *Characteristics  
British Fossils*

Believe me

yours most sincerely  
Wm H. Bellier Baily

Principal Dawson  
McGill College Montreal

We shall appreciate much  
any Canadian species  
you can send us -

---
