

Montreal, 15th Dec 1870Messrs Dawson Bros
City

Sirs - We have received the within copy of a resolution passed by the editing committee of the Materialist. The statement of Mr Whitman's without explanation is most unfair to us as printers -

The facts are that until about a week or two ago we had not the copy for the July Number - and therefore up to that point the delay is one we are not responsible for, and we are advised that in the past the same sort of thing has been the rule. If Mr Whitman or the Committee will furnish copy and avoid delay in the returning of proofs we will undertake always to have the book out with 3 or 4 days of being furnished with the last of the copy and proofs - as the July number will follow it in a very few days if we are not delayed by proofs

Yours
T & R White

London 15th Dec

My dear Sir

The enclosed copy of the
report of the Select Committee
of the House of Commons
on the subject of the
administration of the
Government of India
is herewith forwarded to you
for your perusal. The
facts are that the
Government of India
has been the subject
of a long and
fruitful discussion
in the House of
Commons. The
Government have
been accused of
neglecting the
interests of the
people of India
and of being
unwilling to
reform the
administration.
The Select
Committee have
therefore
examined the
evidence and
have reported
that the
Government
have been
negligent in
their
administration
of the
Government
of India.
They have
recommended
that the
Government
should
reform the
administration
of the
Government
of India
and should
take steps
to improve
the
administration
of the
Government
of India.
I am, Sir,
very
truly
yours,
T. & R. White

Secretary
of the
Committee
