

U.S.O.

Montreal. 9 Jan^y 71.

My dear Dr. Dawson

I have this morning rec^d.

took note from you of the 7th & 9th respecting

In the latter you mention a pamphlet
"Enclosed". but I suppose you must

have forgotten it, as it did not accompany
your note. — I shall be much obliged

to you for a complete series of the papers
you mention.

I do not think we have any copies for
distribution of W. Murray's reports. It would
I think be best for Prof. Dana to

Selwyn
Jan 23

copy of which I Mr. Manning, who I have no
doubt would have him copies of all the reports
he has received relating to the Fisheries of Newfoundland.

Very sincerely
Yours

John C. Selwyn
