Prof. Danson

Dear Sir

On account
of illness I have been un-
able to write and thank
you for your letter about
the specimen of Serpen-
tine I sent. I am sorry
it did not prove to be
more interesting but
am none the less obliged

Pater July 11/33

to you for having ~~the~~
taken the trouble to look
at it. I have plenty more
of it and am very glad
that you should keep
the piece sent and
send for more if you
care about having it.

Yours truly
Yours

William B. Pater
