

M. Gill College,
Montreal.

Apr 6, 1871

My dear Prof. Ramsay,

Many thanks
for your kind letter of
March 18. It is very gratifying
to me to know that
you like George, also I
hope will do all in his
power to deserve your
good opinion.

I shall ask him
to see you about the
pilot-work you are so
good as to promise. As
to premature - it is

probable that Pulawson
work would be ^{the} more
practically useful to
him; but I would
prefer that he should
go with an agreeable
and instructive leader,
& any chance in the
matter of formation;
and thus I shall
ask you to arrange
for him. I shall
see that he gets

anything that you
may prescribe in the
way of outfit.

If, as you say, I am
down to a dead end place
to live in, from the
preparation of work, so
I am sure is Montreal,
We have so many new
things going on, in ad-
dition to heavy regular
work, that I can
scarcely find a moment
for any original work or
even for teaching, I

after some of the
point of saying that
if I could get a
quiet corner out
of the world where
I could work at
paper plants and
such things I would
prepare all alleged dis-
putes & enunciations
and be happy; but
I fear there is nothing
in it but just on the
the end of the chapter
With all kind regards
to you and Mrs. Nancy
I am your sincere
W. Jackson
