

Tuesday Morn. Apr. 25-

My Dear Sir

Thence your note about
the coal planets - I have prepared
a sketch for the paper of what I
said last night of fine it to Whittier,
for the local press. I shall have
a copy drawn before he sends it
to nature, and in case you have
not given any abstract of what
you said I have added a few
words. Whittier has not yet come,
but will call soon, in case he
thinks his own notes of what you
said will not do better. I will

if he sees fit. let him print. my
please read the enclosed prep copy &
if you see any corrections to make
before sending it to nature let me
know.

faithfully yours

J. Story Hunt
