My dear Sir

I rec^d. your kind letter
yesterday morning & have today
been going into my plans, reviewing
them carefully by the help of native
intellect which has come to me in the
person of Prof. Bedford, hoping to
be able to arrange to visit Montreal
about the time suggested. I am however,
much to my grief, compelled to
give it up. I find I cannot
compass it in a satisfactory manner
which I may not break. This is a

great trouble born but I cannot
help it. But for the British
Account Money in Edw. Is. I
have been able to leave home a week
earlier than I should have been able
to perform all I had intended

- Should circumstances permit me
to return to Montreal at the end
of Sept. - saying yet October I will
write for you.

I have a few specimens here for
you which I will despatch from
Droit - Infiltrated Specimens of
Parthenia - I could not light
up any uninfiltrated ones - I
have only some broken bits in
my own cabinet - but these will
