Nov. 3rd/71

My dear Sir,

I send you with
this a paper on "Colonies", which
I shall be glad to have published
in the "Canadian Naturalist". Of
course, the greater part of the
paper is not original, but I do not
know of any clear & detailed ex-
position of Mr. Berrand's views on
this subject in English, & so hope
you will think it worthy of insertion.
I also send you ~~with~~ the cast of the
skull of a *Labyrinthodont* which
I promised you, & have put into
the same box, for yourself, a couple
of specimens of what I believe to
be plants from the Skidlaw Hills

along with a so-called "Fucoid"
from the Ludlow Rocks of Wales,
which may perhaps be of inter-
est to you, as it appears to me
to be an undoubted plant of
some kind. With kind regards to

Yours truly
Wm Dawson,

believe me

Yours very truly

W. Alleyne Nicholson
