

Geological Survey

— OF —

New Hampshire.

Hanover, N. H. Nov 4 1871.

Principal Dawson,

My Dear Sir

My atlas waits

now only for contributions from half a dozen men that have been promised - & if they were in printing would commence tomorrow.

I hope it may be convenient for you to send me some notes upon the Geology of Nova Scotia, concerning which we have already written. In haste

Respy. Yrs

W. B. Hitchcock
