

St. Malaire.
St. Montreal.
Canada.

April 23^d 1872

My dear Sir

I have made up
a box of sugar similar
to that which I presented
to M^rme Arthur when he
was here, do with it
what you please.

I send you also a
small parcel for

family use, and two
bottles containing
maple sugar through
which syrup and water
have been filtered, the
second bottle syrup the
other water; you will
find a difference in

Laste thought there's
not much in their
appearance. It has not
been a favorable year
for us

Yours very truly,

Thompson
