

Ware Pinery

Herb

18<sup>th</sup> Oct. 1872

Dear Dr. Dawson

I sent one of the  
two copies I received from  
you to Mr. Dr. Roberts,  
who is working out  
the fauna of the Scotch  
boulder clay or till;  
& I forward to you  
his letter of acknowledgement.

It may be useful to you  
as a correspondent.

With kind regards  
to Mrs. & Miss Dawson,  
as well as to our friend  
Sir W. Logan

Believe me

Yours very truly  
J. Foye Jeffrey

21. I return to London  
(25 Devonshire Place)  
in the beginning of next  
month.
