

New Haven, Nov. 6. 1872

Dear Dr Dawson

We shall be
happy to publish your
paper, in our Jan'y no.
The Dec. no. is already
full, and some papers are
on hand for the following. —

You will find in the
Journ. Sci. that I have changed
my ground on the quartzite
question. I couldn't help it.
Sections, unmistakable
superpositions, left me no
other course.

Very truly yours

James W. Dana
