I have also suggested to
Mr. Prentiss that as the
beaver cut off accident at
the entrance some has
for the beaver shut up the
beaver cuts toward the
cup of the dam exactly in
that place and the dam
may well have to raise
two to four shafts of the
deep, and as this will
open up a supply of land
extending as much to a
depth of 150,000 lbs per acre
for at least 50 years - it might
be a favorable time to me-
