London, 16<sup>th</sup> Octr 1873

Dear Sir

We beg to enclose you a map & description of seven iron mines in Nova Scotia called the Bruce Iron Mines which some clients of ours have been asked to take up. Mr Prentice has been here to-day & has given us a description of some mines in that district with which we believe you are well acquainted. We should feel greatly obliged by your informing us by telegram which properties you consider the best. It appears you have reported upon Mr Prentice's mines an account & description we also beg to enclose. We also enclose an extract from the Mining Journal of the 11<sup>th</sup> instant which Mr Featherington informs applies to an area owned by Mr Giles some of the lodes of which run into the Bruce Mines. Mr Prentice says he is the author of this extract & that it is descriptive of his property & not Mr Giles's

Prof. Dawson F.R.S.

Montreal.

Yours truly  
Nimber & Lee
