

Brunswick
Victoria 25th Aug^r 1874.

My dear Sir

I am much obliged
to you Mrs Dawson for your kind
invitation to Mrs Prunroir & the
girls. They left for Miramichi
this morning for Quebec and
are under the care of Capt. Charles
St MacKenzie of Montreal who
will see them along safely -

When you come to Montreal
Mrs Prunroir will gladly avail
herself of your kind advice in
arranging for the studies of the
girls. I am sure we would
not wish them to be troublesome
to you while we would value
it highly if you could look in
on them occasionally and
see how they progress at Mrs

Mereers. and also give your aid
in arranging for their regular
attendance at a Presbyterian place
of worship. Mrs Prill talks over
all matters when she sees you.

I regret to say it is rumored
here that the Diamond Drill is stuck
in the hole at E Rwin boring since
Saturday and cannot be drawn
up. I have not seen Mr. Logan but
expect to shortly and will get
particulars from him and write
you. I believe that he is up there
endeavoring to raise the drill with
jack-screws & expects to succeed. I
will see him as soon as possible.

Yours Truly
Howard R minor

Principal Dawson
